VOLUNTEER TRAINING

WHY

Each school year TWA serves around 15,000 students statewide through their outdoor education programs. This achievement is absolutely not possible without knowledgeable and trained individuals like yourself!

Through this training you will be eligible to earn volunteer service hours every school year. There will be at least 60 available hours within Guadalupe County this year alone!

Please join us for our upcoming L.A.N.D.S. Intensive volunteer training in Seguin!
